## **ADVANTAGES** *Universe specialist Est*

.has many advantages over other solid materials and other types **Marble & Stone**  
:Some of them are listed below

1. not is It .stone natural a is Stone & Marble – natural is Stone & Marble  
manmade therefore it has natural beauty. It is made up of different  
goes and unique is tile Every .feldspar and mica ‘quartz as such minerals  
to mountain a of side the of out quarried being from stages many through  
and stones manmade of forms Other .tiles into polished and cut being  
.chemicals countertops contain
2. harder are diamonds Only .earth on stones hardest the of one is - Hardness  
is Stone & Marble .Stone & Marble cut to use they what are diamonds and  
last will it properly maintained if and scratch to hard therefore durable very  
.years for many, many
3. homes end-high only and costly very was Stone & Marble past the In – Cost  
for possible it made has **Est specialist Universe**. it used buildings large and  
tile. Many of our Marble & Stone nearly every household to afford  
they after that us told have architects and designers are who customers  
buy a started to buy from us they asked themselves, “Why would you  
than price higher a at Stone & Marble like look to made man is that product  
at?” thing real the buy can you what
4. .centuries for world the around used been has Stone & Marble – Variety  
See .patterns and colors different of hundreds with us provided has Nature  
!selection our
5. other any outlast building a of parts Stone & Marble the – Lasting Long  
Stone & Marble of piece Every .building the in used materials construction  
difference only The .years of millions for earth on been already has see you  
!polished it’s that is now
